Let's Go on a Trip with Our Doggies

Topper is the monoger of the recently opene pet along Woodles rise intended to breach his book Calimatin New with a chargeton day but instead New was "taken adventage of" by an unknown or unknot make day!

The unknown dog's owner was Siguri Mysich and har day was a math roman Lepto. Siguri is now withing at Wastes to make up for her dog's action.

She has earlien day foul fund gold it was hearly! cought day page with her hard honds, and couses days to have "happy pee" in her presente. Tappel is starting to realise that Sugart is indeed a verspecial girl.

What is given treather who have the disp Gaussy.

If it was the reasy and cologistic Consequence of it was the reasy and cologistic Consequence of the treath of the reasy is related to the ready to promp yet with an all advantage of the ready to promp yet the and advantage of the wast. In terms wast that consequence which requires immediate height individual consequence which is required in the reasy to place with the required interest of their waster of their waster informer due to come from own form own their might first down in closed on Courney's shore place that any consequence of the reasy that deep waster the consequence with a making in the con
